WHAT? The Family Jewels

WHO? The Family Jewels is the ultimate stop for lovers of unique and original jewellery and accessories.

WHAT? You'll find every semi-precious stone: from blue topaz and amethyst; to black pearls set in rings, bracelets, earrings and ornate necklaces. If beads are more your thing, there's plenty of wooden bangles and chunky necklaces.

WHY? Owner Kate started the business over 20 years ago by making her own jewellery and selling it at the markets. The business has grown steadily; with five locations in Sydney and expansions planned into Queensland and Victoria. Kate travels all over the world sourcing stones and new jewels, as well as finding the time to design pieces herself! There are such a variety of pieces in store: you can pick up a pair of earrings for super cheap, or go all out on a one-of-a-kind necklace. You'll find just the piece to top off your formal dress, a special present for a friend or a treat for yourself at The Family Jewels!

WHERE? The Family Jewels is only in Sydney at the moment, but check out www.thefamilyjewels.com.au for more info on locations.
